

These images can be used to replace the faded numbers on the old Gottlieb score reels. Just print them on sticky paper (A3 or Tabloid size). Long strips are 330x29mm in size. 330mm is a bit too long, so cut to size. Actual size should be 320mm Use the PDF file for printing because of the special font used (Carre.ttf; specially made for me).

Enjoy and have fun,
Peter
